

Assignment on Data mining

Write a program to perform for the following problems:

1. Error detection and fixing
2. Noise/outlier detection
3. Linear Regression
4. Multiple linear Regression
5. Polynomial/non linear Regression
6. Logistic regression
7. Decision tree
8. Apriori Algorithm
9. Evaluate Confusion matrix, F1-score, Precision, Recall, ROC curve from a model.
10. K-nearest neighbor classifier
11. K-mean clustering
12. Bayes Classification
